

ZELIOX NEO

Zeliox Neo brings structure to mobile energy supply: As a fully integrated solution, it combines battery, charger, inverter, and solar controller in one compact module – saving space, simplifying installation, and ensuring safe operation. With versatile charging options from solar, shore power, or alternator, your energy supply stays reliable at all times – whether you’re on site, on the move, or far from the grid.

PRODUCT NAME	ZELIOX NEO 3600
Power	3,600 W
Surge peak	7,200 W
Capacity	2.4 kWh
Battery capacity	50 Ah
Battery type	LiFePO4
Charging while driving 30 A @ 12 V / 50 A @ 24 V	1:50 h @ 12 V / 1:07 h @ 24 V
Charging via solar 1,000 W	1:50 h
Charging via shore power	1:07 h
Output	12 V / 24 V / 48 V / 120 V
Control unit	Integrated touch screen & control via Android / iOS App
Connectivity	App-Integration (Bluetooth, 4G)
Weight	94.8 lbs / 43.0 kg
Dimensions w x d x h	19.3 x 15 x 8.5 in / 490 x 380 x 215 mm

*Expandable with external batteries

ENERGY STORAGE SYSTEM / ZELIOX NEO

ZELIOX NEO – MOBILE POWER. ANYWHERE. ANYTIME.

The mobile All-in-One power solution.

ZELIOX CONTROL MODULE

The Zeliox Control Module (ZCM) is a stand-alone smart power distribution system that connects directly to your vehicle battery. It lets you wirelessly manage vehicle accessories with six programmable channels (expandable to 24). It eliminates complex wiring, reduces installation time, and ensures seamless energy control. With RF-controlled buttons and app integration, you can adjust settings, monitor power usage, and prevent battery drain – making power management easier, safer, and more efficient.

WHAT IS ZELIOX?

The Zeliox is a versatile All-in-One power solution designed for mobile energy needs. With multiple versions and expansion options, it delivers clean, uninterrupted power for tools, appliances, and accessories. The plug & play installation makes setup effortless, while various charging methods keep you powered wherever you go. Whether in service vans, construction trailers or remote locations, the Zeliox ensures efficient, flexible, and secure energy.

KEY FEATURES:

Reliable energy – The All-in-One power solution with battery, inverter, and safety features ensures stable 230 V & 12 V energy, eliminating complex installations.

Plug & Play Installation – Quick setup with secure connections and no complex wiring

Flexible charging options via mains power, solar, or vehicle alternator

Plug & Play power supply – integrated 120 V sockets and DC-DC converter (12 V / 24 V) provide flexible and direct power for all types of electrical devices.

YOUR ZELIOX – THE WAY YOU NEED IT

Enhance your Zeliox system with accessories for greater flexibility and efficiency. Add sockets, solar panels, expand capacity with additional battery packs, add an external charging point for easy shore power connection and more. With modular add-ons, the Zeliox adapts to any professional need.

ENERGY FOR EVERY APPLICATION

Zeliox Neo grows with your needs: The modular system can be expanded with up to three additional batteries as energy demands increase – providing a total capacity of up to 9.6 kWh. This makes it ideal for long-term campers, larger motorhomes, or anyone seeking maximum self-sufficiency. Powerful performance meets a compact and lightweight design – starting at just 43 kg, it fits perfectly even in smaller vans.
